

Auto Faucet

Automated Water Saving System

Auto Faucet sets the standard for reliability and user-friendly performance in automated faucet systems. Equipped with Surround Sensor Technology, Auto Faucet delivers water only when needed, resulting in water savings up to 70 percent.

By installing auto faucets, you benefit from:

A Healthy, Safe Environment

Protect your employees and guests from the spread of infection by offering user-friendly, touch-free hand washing technology.

Reduced Absenteeism

Good hand hygiene leads to reduced illness, and reduced levels of sick leave and absenteeism.

Reliable, Innovative Technology

The design ensures trouble-free operation. Battery life lasts for 400,000 cycles, or 3 years. Also available with power adapter.

Reduction in Costly Water Waste

Auto Faucet can reduce water use by up to 70%, protecting our most precious resource, and lowering your water bills.
