

On The Go Hygiene Airport Scorecard

How does your airport hygiene score?

Use this free scorecard to assess where you are now and what opportunities you have to enhance airport hygiene.

At Citron Hygiene, we are experts in building healthy spaces. This assessment will help you understand how you can transform your airport hygiene and what we can do to help you ensure a safe, hygienic and healthy environment!

Instructions:

1. Fill in each box with a 1 for every safety measure you have in place.
2. Add each box together to find the total
3. Compare the score to the results section.

Ready-to-Use Surface Disinfectant Cleaners

Do you have effective chemicals to clean high-touch surfaces & equipments regularly?

Personal Hygiene Disposal

Is there proper disposal for personal hygiene products such as sanitary or incontinence waste?

Hand Soap & Sanitizer on Service

Hand hygiene is the first line of defence in reducing infection transmission.

Do you have a reliable service provider for hand soap and sanitizer dispensers available in the right areas?

Air Care

Good ventilation reduces the concentration of bacteria and viruses to reduce the risk of transmission.

Do you have effective air purification in place to remove germs and bacteria from the air?

Adequate Restroom Facilities

Germs can easily spread in the restroom environment.

Does your restroom offer the right facilities such as toilet seat cleaner and hand dryers?

Enhanced Disinfection Programs

Regular cleaning can remove surface level germs, but professional disinfection can eliminate germs.

Do you have professional disinfection carried out regularly?

Restroom Deep Cleaning

Microscopic germs, viruses and bacteria create health hazards in restrooms.

Does the facility complete a deep cleaning to remove lime and scale?

Family Restroom Hygiene

30% of adults travel with children in the United States.

Do you have infant care changing tables & proper disposal program in place so parents can change their children's diapers safely?

PPE Disposal

Appropriate PPE should be worn while employees are working.

Does your workforce have adequate facilities to dispose of PPE safely?

Scoring and Results →

Scoring and Results

TOTAL SCORE

RESULTS

Hazardous

Score Range: 0-4

The hygiene of your facilities is putting your workforce at risk to harmful bacteria and viruses. Contact Citron Hygiene today to improve your results.

Needs Improvement

Score Range: 5-7

Your facility is lacking some basic necessities to create a healthy space. Although you have taken the user into consideration, there are still key measures missing that could make your business safer for all.

Thoughtful

Score Range: 8-9

Your facility provides a safe and hygienic experience minimizing the risks of infection. Remember, it's worthwhile still speaking to your hygiene services provider to see if anything else can be done to achieve even better levels of hygiene and safety.
